WHAT

Professionals meeting professionals in an open exchange of information and expertise: business leaders, immersive tech developers, designers and industry pioneers.

Inspirational speakers: speakers and projects across the different fields of Manufacturing, Mobility, Healthcare, Architecture and Design, Art and Entertainment.

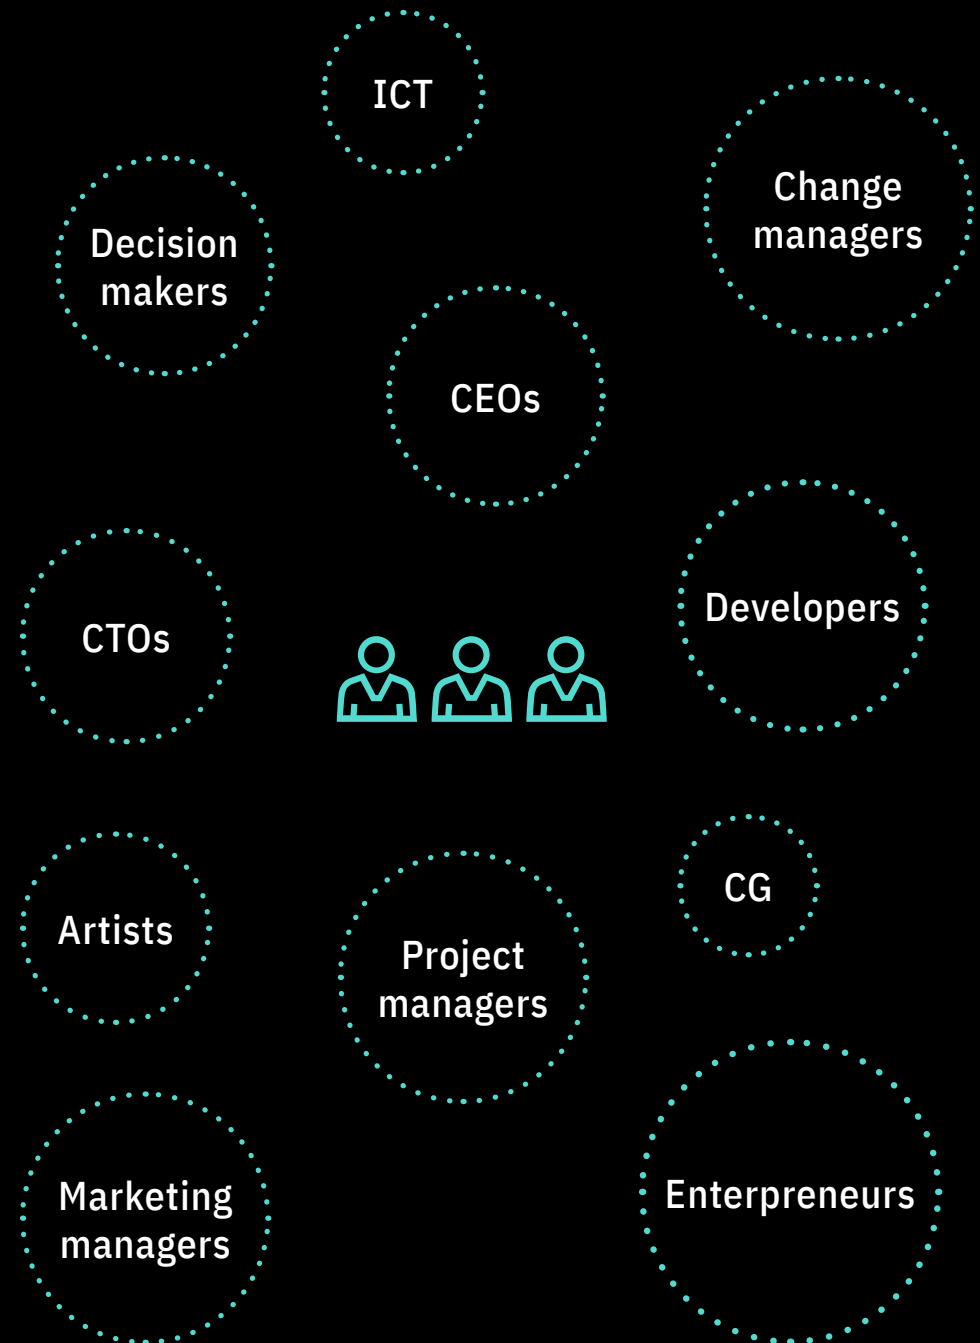

Business-driven: EICS is built up and studied to involve companies, professionals and investors working on new technologies sharing the tools to innovate.

WHO

An event for **CEOs, CTOs, CMOs** and anyone dealing with innovation: AR, VR and emerging technologies to help growing your businesses increasing productivity, efficiency and overall performances.

Explore and learn throughout workshops and hands-on demos.

For **project managers, engineers, developers and designers** to learn how to develop software and new projects innovating products and processes.

We have multiple solutions for you, from small contributions to silver sponsorships.

Get in touch
to learn about all our
sponsor proposals.

A VISION BEYOND

A person wearing a VR headset and holding a controller in a futuristic setting. The person is wearing a dark jacket and pants, and is holding a VR controller in their right hand. The background is a blurred, futuristic environment with various objects and structures.

INNOVATION TECHNOLOGIES ARE OUR SUPER POWER

“Nature and technological artifact are atoms of a hybrid material that identifies itself with a multidimensionality, where human abilities are transformed, enriched, increased and enhanced.”

FROM THE BOOK “LA SCIMMIA VESTITA” – TUNIZ, VIPRAIO.
